Early Childhood Education Teacher Program (taught in English)

Special fee-based program with a credit-hour system

Vice Dean for Education and Student Affairs

Prof. Dr. Wael Ramadan Abdel Hamid

Dean of the Faculty

Prof. Dr. Hossam Hamdy Abdel Hamid

Program Vision:

A graduate who is competitive in the job market and capable of utilizing their potential in entrepreneurship and community service.

Program Mission

The program aims to provide the graduate with a comprehensive education based on theoretical, applied, educational, and academic principles, enabling them to fulfill their role as a teacher and educator using specialized, educational, and general skills in their field. The graduate will be proficient in both Arabic and English, using them to communicate with children, families, and the community, while being mindful of the nature of their society and modern global developments.

Program Objectives

- To prepare the student to meet the needs of the job market.
- To develop the student's self-learning skills for professional advancement.
- To utilize acquired information and skills to develop the child's abilities.
- To apply the specialized knowledge acquired to address professional challenges in the field of Early Childhood Education, within the available resources.
- To raise awareness of the importance of regular professional practices in achieving quality professional performance.
- To equip the student with the professional skills and knowledge related to using appropriate technological tools in the field of early childhood education (in English).
- To acquire the skills and values necessary for children's learning in institutions concerned with early childhood education.

Graduate Attributes

- In addition to the general qualifications of a Faculty of Education graduate, a graduate of the Bachelor of Science and Education program, specializing in Early Childhood (taught in English), will be able to
- use English to communicate with children, families, and the community.
 - fulfill their role in their field of work with children, families, and the community.
 - apply educational knowledge and skills in their field of work.

- Employs specialized knowledge and skills in their field of work.
- Apply the latest methods and technologies in their area of specialization.
- Develop themselves and their community.
- Practice communication, decision-making, and leadership skills with the team.
- Adhere to professional ethics, accepting accountability.

The program also offers graduates opportunities to work in:

- Montessori schools in Egypt and worldwide.
- Kindergartens in language schools and international schools.
- The media field, where the program prepares graduates to work in radio, television, journalism, and public, school, and kindergarten libraries (both public and private).
- The medical field in clinics and hospitals that provide services to children.
- The fields of care and education for children with special needs.
- Institutions producing educational materials and tools.
- The field of education: kindergartens affiliated with public and private schools that aim to teach in both Arabic and English in Egypt, the Arab world, and foreign countries.
- Nurseries and institutions caring for children under 8 years old affiliated with the Ministry of Social Solidarity.
- Children's cultural centers.
- Entrepreneurship in the field of early childhood.
